

## SOMERVILLE ARMORY ACCESSIBILITY

All bathrooms are wheelchair accessible. The entrance ramp to get in the building, as well as an elevator to the second floor, are as well. The Armory is almost entirely wheelchair accessible, with the exception of the stage in the performance hall. PSD aims to make the aisles between tables as wide as possible to accommodate wheelchairs. Our volunteers are also available to help those with mobility issues.

While we do not have a certified ASL interpreter, we do have someone conversationally proficient in ASL for those who are deaf or hard-of-hearing.

Unfortunately, event spaces are loud, so some will have difficulty hearing due to ambient noise.

PSD volunteers are available to help those who have visual challenges navigate the space safely.
